

VISHAL RAI

raivishal2121@gmail.com | +91 9532109506 | github.com/rai0vishal | linkedin.com/in/VishalRai0108

Summary

Computer Science graduate (B.Tech, CGPA: 8.57/10) with hands-on internship experience building and deploying production web applications using the MERN stack (React.js, Node.js, Express.js, MongoDB) and MySQL. Skilled in REST API design, JWT authentication, and real-time systems with Socket.IO and WebRTC; solved 250+ DSA problems on LeetCode and CodeChef. Seeking a Software Developer / SDE-1 (Fresher) role to build scalable, reliable products.

Education

B.Tech , Computer Science and Engineering, UIET, Kanpur (2022–2026)	CGPA: 8.57
Class XII – CBSE , R L B Memorial Senior Secondary School, Lucknow (2021)	95.6%
Class X – CBSE , R L B Memorial Senior Secondary School, Lucknow (2019)	95.8%

Technical Skills

Languages: JavaScript, Java, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Canvas API, Recharts

Backend: Node.js, Express.js, REST APIs, Socket.IO, WebRTC, JWT Authentication

Databases: MongoDB, MySQL

Tools: Git, GitHub, Docker, Postman, Cloudinary, Firebase, Vercel, Render

Concepts: Data Structures & Algorithms, OOP, REST Architecture, Authentication & Authorization

Experience

MERN Stack Developer Intern (June 2025–Aug 2025)
Global Next Consulting India Pvt. Ltd. (GNCIPL)

- Developed and deployed 2 full-stack web applications using React.js, Node.js, Express.js, and MongoDB as part of a team of 3 developers.
- Optimized REST API endpoints through query indexing and middleware improvements, reducing average response time by 30%.
- Participated in code reviews and pair programming sessions, improving code quality and maintainability.

Projects

SkillX – AI-Powered Skill Exchange & Collaboration Platform

Github : <https://github.com/rai0vishal/SkillX> | Live Demo : <https://s-kill-x.vercel.app/>

Technologies: React.js, Node.js, Express.js, MongoDB, Socket.IO, WebRTC, Firebase Auth, Gemini AI, Cloudinary

- Developed a full-stack peer-to-peer skill exchange platform with 83 REST API endpoints featuring intelligent skill matching, collaborative gig management, and real-time communication using Socket.IO and WebRTC supported by a scalable backend architecture with 17 MongoDB/Mongoose models.
- Integrated Gemini AI to generate personalized learning roadmaps, enhance gig descriptions, and provide smart recommendations, with RBAC, dashboard analytics on a scalable REST API architecture, optimized database queries through compound indexing and reduced average query time by 67%.
- Resolved 8 production blocking security and reliability issues during codebase auditing and backend improvements.

TaskFlow – Real-Time Task Management App

Github : <https://github.com/rai0vishal/taskflow> | Live Demo : <https://task-flow-omega-khaki.vercel.app>

Technologies: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT Authentication, Tailwind CSS, Vercel, Render

- Developed a real-time Kanban task management application supporting collaborative task tracking, and one-to-one messaging, with 36 REST API endpoints covering pagination, authentication; optimized task-list query performance by 90% through compound indexes aligned with filtering and sorting patterns.
- Designed an analytics dashboard using Recharts with in memory caching (node cache, 300s TTL) and strengthened API security through tiered rate limiting (100 req/15min globally, 20 req/15min on authentication routes).

Matty – Online Graphic Design Tool github.com/Riteshmaurya07/Matty_Graphic_design_tool | Live Demo

Technologies: MongoDB, Express.js, React.js, Node.js, Cloudinary, JWT Authentication, Canvas API

- Engineered a browser-based graphic design platform using Canvas API for layer management, drag-and-drop editing, and PNG/SVG export, secured with JWT authentication and Cloudinary-based media storage.

Certifications

- Full Stack Web Development** – Apna College
- Internship Completion Certificate** – Global Next Consulting India Pvt. Ltd. (GNCIPL)

Achievements

- Solved **250+ Data Structures and Algorithms problems** across LeetCode and CodeChef, demonstrating strong problem-solving and algorithmic proficiency.
